

Horizon Therapeutics plc Wins International CSR Excellence Award for Partnership with Perspectives Math and Science Academy

July 25, 2019

DUBLIN--(BUSINESS WIRE)--Jul. 25, 2019-- Horizon Therapeutics plc (Nasdaq: HZNP) announced today that the company has won a Gold International CSR Excellence Award in the Large Business category for its partnership with Chicago-based school, Perspectives Math and Science Academy (MSA). A video highlighting the partnership can be found [here](#).

Since 2016, Horizon's partnership with MSA has focused on three areas of giving: infrastructure, programming and employee engagement. To date, Horizon has invested more than \$500,000 in financial support and programming, as well as more than 1,000 employee volunteer hours. Through the partnership, Horizon has installed water filtration systems in the school, providing students with access to lead-free water; helped build a peace and mediation room; coordinated college tours; provided mentorship and programming; supplied resources for the robotics club and furnished a technology lab, among many other school improvements.

"Horizon's support of MSA reflects our relentless commitment to the communities where we work and live," said Holly Copeland, senior director, public affairs and corporate social responsibility, Horizon. "Our leadership team and employees are all dedicated to making a meaningful difference that goes beyond writing a check. We hope that the story of our partnership with MSA inspires other companies to do the same, regardless of their size."

The [International CSR Excellence Awards](#) recognize companies around the world that have demonstrated a commitment to corporate social responsibility, going beyond normal business practices to benefit others. As a result of the award, Horizon will join the newest class of CSR World Leaders inducted into the group on Nov. 25. In addition, *The Global Guide to CSR Excellence*, an international publication distributed to CSR professionals, businesses, corporate decision makers, media, governments, local authorities, reference libraries and universities will profile Horizon's work.
