

Horizon Therapeutics plc Announces Elizabeth H.Z. Thompson as a Healthcare Businesswomen's Association 2021 Luminary

May 6, 2021

DUBLIN--(BUSINESS WIRE)--May 6, 2021-- Horizon Therapeutics plc (Nasdaq: HZNP) today announced that Elizabeth H.Z. Thompson, Ph.D., executive vice president, research and development, has been named a 2021 Healthcare Businesswomen's Association (HBA) Luminary. Dr. Thompson will be honored at the 2021 HBA Woman of the Year virtual event today.

The HBA is the leading nonprofit global organization committed to furthering the advancement and impact of women in health care. Dr. Thompson is being recognized as a role model at Horizon who actively mentors and sponsors others and for her dedication to health care.

"It is an honor to be recognized alongside such an accomplished group of women who are committed not only to advancing the state of health care but also supporting the careers of other women in the industry," said Dr. Thompson. "It is more important than ever for us to emphasize creativity and collaboration in our work to improve health. HBA's awards showcase the importance of both 'what you do' and 'how you do it' in the health care industry."

Dr. Thompson has more than two decades of experience in clinical and business development, global regulatory submissions and medical communications. Since joining Horizon in June 2018, she has been responsible for the guidance of clinical development activities across the portfolio, including the expedited filing and approval of TEPEZZA[®] (teprotumumab-trbw) and its successful FDA Advisory Committee meeting.

"Liz has played an integral role in driving the growth of Horizon's R&D organization and solidifying our future as an innovation-driven biotech," said Tim Walbert, chairman, president and chief executive officer, Horizon. "She is admired by her colleagues and has a passion for developing treatments that will make a difference for the patients we serve. On behalf of everyone at Horizon, I congratulate Liz on this tremendous recognition."
